

AQUATIC INVASIVE SPECIES STRATEGY TEAM

www.AISstrategyteam.org

Outline for Each Drafting Team's Document

Each drafting team (based on vector) will use the following outline:

- I. Problem Statement
- II. Establishment of Performance Based Goals with Prioritization
 - Prevention
 - Early Detection and Rapid Response
 - Assessment and Monitoring
 - Control and Management
 - Outreach and Education
 - Applied Research
 - Monitoring
 - Human health
 - Tribal considerations
- III. Identify Ongoing Efforts
 - Federal
 - NISA-Current
 - NAISA-Reauthorization
 - State
 - Regional
 - Local
 - Private
- IV. Alternative Approaches
 - Costs Associated with Approaches
 - Benefits Associated with Approaches
 - Feasibility Associated with Approaches
- V. Recommended Actions
 - What
 - When
 - Who
 - Why
 - Endpoint

The final, consolidated action plan for AIS will include a summary of recommendations, including funding needs. According to EPA, the document itself will be a 4 to 5 page strategy, backed up with other materials.
