

Guide to U.S. Policy Committee's Great Lakes Strategy 2002 Goals

SUSTAINABLE DEVELOPMENT STRATEGY TEAM

The Great Lakes Regional Collaboration's "Sustainable Development Strategy Team" addresses Governors' Priority: "Adopt sustainable use practices that protect environmental resources and may enhance the recreational and commercial value of our Great Lakes."

Issues to be covered include, but are not limited to: transportation, brownfields, land use and preservation practices, waterfront restoration, and economic viability as a function of environmental and natural resource protection.

Relevant Goals from the U.S. Policy Committee's Great Lakes Strategy 2002:

"Land Use" Section Goals:

#74 Continue to participate in and support the Smart Growth Network.

"Brownfields" Section Goals:

#76 USEPA, Federal, State, and Tribal agencies will continue to support local Brownfield redevelopment efforts
