

**Great Lakes Collaboration  
Sustainable Development Strategy Team  
Land Use and Development Workgroup  
Work Plan**

**1) Use Description and Trends (due end February 05)**

- a) What is the current state of use of resources and activities in the Region to support this activity (including its contribution to the economy and social structure of the Region/Nation)?
- b) What are projected trends in these activities and their contributions or deterrents to sustainable land use?

**2) Sustainable Practices (due end March 05)**

- a) What are the principles of sustainable development related to land use?
- b) What practices demonstrate these principles in action?
- c) How are these practices being applied in the region?

**3) Recommendations (due April 20, 2005)**

- a) What is limiting more extensive, consistent or effective application of these practices?
- b) What actions can be taken to overcome these limitations?
- c) Who should lead these actions or guide their implementation?
- d) How can we prioritize the actions to enhance sustainable development?
